Campus Card History Timeline

1968-2008

- R.D. Products (Rochester, NY) develops and installs the first electronic card access system at the Rochester Institute of Technology.
- The "VALI-DINE" system (i.e., Validation of Dining) mechanically punched holes in the meal plan card as it was read to signify authorized access to the dining hall. Mechanical counters were automatically triggered to provide customer counts.

Robert Urland, an attorney from Rochester, NY, joins R.D. Products as Operations Manager.

- R.D. Products (Rochester, NY) develops and installs the "VALI-DINE/Series 2" system at the Rochester Institute of Technology.
- This system not only mechanically punched holes in the meal plan card (i.e., to signify access to the dining hall), but electronically read previously punched holes in order to validate "one-time only" access per meal period.

- Amsec (Long Beach, CA), founded by Gary Lorenz and John Darjany, develops and installs the first known card-based campus electronic card access system using magnetic stripe technology (i.e., low coercivity) at California State Polytechnic University.
- R.D. Products (Rochester, NY) and Amsec (Long Beach, CA) jointly develop a patented one-piece card production system containing a camera, timer, and laminator – in a suitcase.

Amsec (Long Beach, CA) and R.D. Products (Rochester, NY) jointly upgrade the campus card system at California State Polytechnic University (Pomona, CA) with magnetic stripe technology to the "VALI-DINE/Series 3".

- R.D. Products (Rochester, NY) purchases
 Amsec (Long Beach, CA).
- R.D. Products installs five new campus "VALI-DINE/Series 3" systems – including Boston College and the University of California – San Diego.

- The CBORD Group Inc. (Ithaca, NY) is founded by John Alexander to develop and market campus food service systems (i.e., food production management control system, meal plan access system).
- Robert Hager becomes president of IDenticard Systems Inc. (Lancaster, PA), founded in 1970 and a provider of card production and card access security systems.

Robert Urland becomes president of R.D. Products (Rochester, NY), a provider of card production and card access systems for colleges and universities.

- R.D. Products (Rochester, NY) introduces the "Logging Card Reader" (LCR) – designed to store card transactions ("Off-line") using a self-contained tape storage system.
- R.D. Products (Rochester, NY) introduces the "VALI-DINE/Series 4" system new "Food Points" application software installed at the University of Wisconsin Stout (Menominie, WI), University of Kentucky (Lexington, KY), and SUNY Oneonta (Oneonta, NY).

- IDenticard Systems Inc. (Lancaster, PA), a provider of card production and card access security systems, installs its first A.M.E.C.S. at West Chester State Teachers College (West Chester, PA).
- The A.M.E.C.S. system (Automated Meal Control System) utilized magnetic stripe card technology (i.e., low coercivity), and included both "Meal Plan" and electronic "Door Access" application software.

- General Meters Corporation (Calabassas, CA) is founded by attorney Leon Gottlieb to develop and provide vending control systems ("Off/line") for copy machines.
- The CBORD Group Inc. (Ithaca, NY) develops and installs its first "ACCESS" card control system ("On/line") at Cornell University (Ithaca, NY) using magnetic stripe technology (i.e., low coercivity), "Meal Plan" software, and a Burroughs mini-computer as the host.

IDenticard Systems Inc. (Lancaster, PA), a provider of card production and card access security systems, installs its second A.M.E.C.S. (Automated Meal Control System) at Colorado State University (Boulder, CO).

- General Meters Corporation (Calabassas, CA) develops and installs its first "Copier Accountant" system to provide vending control systems ("Off/line") for copy machines at California State University – Long Beach.
- HARCO Industries Inc. (Phoenix, AZ) forms a strategic alliance with Concept Systems Inc. (Philadelphia, PA). HARCO was founded in 1949 by Harvey Bryans of Rochester (NY) as a manufacturer of identification cards and later "On/line" security access systems.

- HARCO Industries Inc. (Phoenix, AZ) and Concept Systems Inc. (Philadelphia, PA), install their first "Entrec" campus card access system ("On/line") using magnetic stripe technology (i.e., high coercivity) and "Meal Plan" software at the University of Wisconsin Stout (Menomonie, WI).
- R.D. Products (Rochester, NY) introduces its "Automated Access Reader" (AAR) and electronic "Door Access" application software.

- General Meters Corporation installs its first "Copier Accountant" and "Door Accountant" systems ("On/line") at Brigham Young University (Provo, UT).
- HARCO Industries Inc. and Concept Systems Inc. (CSI) install their first "A.I.D.S." (i.e., Automated ID System) campus card system at the University of Utah.
- HARCO and CSI install their first "ID Pro" at the University of California – Los Angeles.

- HARCO Industries Inc. sets a new industry standard of 3 sec. response time ("On/line") (i.e., from 10-15 sec.) at Cornell University.
- The CBORD Group Inc. (Ithaca, NY) develops and installs its first "PC ACCESS" system using new personal computer technology.
- General Meters Corporation introduces its new "Lunch Line Accountant" at Fuller Theological Seminary (Pasadena, CA).

- R.D. Products (Rochester, NY) changes its name to Griffin Technology Inc.
- HARCO Industries Inc. (Phoenix, AZ) and Concept Systems Inc. (Philadelphia, PA) dissolve their strategic alliance.
- HARCO Industries Inc. installs its first campus card access system at the University of Texas (Austin) which includes "Meal Plan", "Debit Account", and "Door Access" software.

- HARCO Industries Inc. installs its expanded "Campus-Wide System" at Duke University (Durham, NC).
- Duke University introduces the "DukeCard", under the leadership of Joseph Pietrantoni, which becomes the first "campus-wide" card program at colleges and universities.
- Duke University introduces a "FLEX" account (i.e., Flexible Spending) in addition to traditional "FOOD" (only) debit accounts.

- Special Teams Inc. (Brookings, SD) is founded by Don Endres to develop access control systems for campus food service operations.
- The CBORD Group Inc. (Ithaca, NY) forms its Communications Systems Division – under the leadership of Bruce Lane.
- CCV Systems (Toronto, CAN) installs its first campus card system for copier access at the University of Calgary (Calgary, ALB).

- Special Teams Inc. (Brookings, SD) installs its first "S.E.A.S." system (i.e., Smart Electronic Access System) using bar code technology at Augustana College (SD) and South Dakota State University.
- DEBITEK Inc. (Chattanooga, TN) is founded to provide cashless payment systems ("Off/line) for prisons and corporate campuses.
- The CBORD Group Inc. (Ithaca, NY) forms a strategic alliance with Micros (Columbia, MD).

- DANYL Corporation (Moorestown, NJ), founded by Peter Truscello, develops and installs its first copier vending control system ("Off/line") at Johns Hopkins University.
- Griffin Technology Inc. introduces the "Logging Card Reader" (LCR-4200) to store card transactions electronically (i.e., without its former self-contained tape storage system).
- Roth Systems Inc. (Lancaster, PA) purchases the A.M.E.C.S. system from IDenticard Inc.

- ARA Services Inc. (Philadelphia, PA) installs its first "ScanPlus" meal plan access system ("On/line") using bar code technology at Utica College (Utica, NY).
- NPD Systems Inc. (Newtown Square, PA), founded by Niles Dally, introduces its first card access system ("Off/line").
- CCV Systems (Toronto, CAN) installs their first "multi-function" card access system ("Off/line") at Laurentian University (Sudbury, ON).

- Griffin Technology Inc. (Rochester, NY) introduces its first "non-proprietary" magnetic stripe card access system.
- Griffin Technology Inc. (Rochester, NY) introduces its new "Modular Door Access Reader" (AR-4300).
- Special Teams Inc. (Brookings, SD) installs its first card access system using magnetic stripe technology (i.e., low coercivity) at Drake University (Des Moines, IA).

- Marriott Corporation (Bethesda, MD) develops and installs its first meal plan card access system using smart card technology at Trinity College (Burlington, VT) and Queens College (Charlotte, NC).
- DataCard Corporation (Minneapolis, MN) forms a Smart Cards & Systems division.
- IdentoGraph Corporation (Dryden, NY) introduces its first digital imaging card production system using "scratch" technology.

- HARCO Industries Inc. (Phoenix, AZ) and The CBORD Group Inc. (Ithaca, NY) form a strategic alliance providing CBORD with the exclusive rights to market HARCO campus card access systems.
- DataCard Corporation (Minneapolis, MN) and Marriott Corporation (Bethesda, MD) form a strategic alliance to co-develop and install "campus-wide" card access systems – using smart card technology.

- DataCard Corporation (Minneapolis, MN) and Marriott Corporation (Bethesda, MD) install their co-developed "All-in-One-Card" card access system, using smart card technology, at Queens College (Charlotte, NC), Loyola College of Maryland (Baltimore, MD), and Hamline University (St. Paul, MN).
- Florida State University (Tallahassee, FL) becomes the first public university to link their campus card ("Seminole ACCESS") with a financial institution (i.e., bank).

- The strategic alliance between HARCO Industries Inc. and The CBORD Group Inc. is dissolved.
- DANYL Corporation (Moorestown, NJ) and DEBITEK Inc. (Chattanooga, TN) form a strategic alliance to develop and market the "ALLCARD" card access system ("Off/line").
- The CBORD Group Inc. (Ithaca, NY) and Synergistics (Natick, MA) form a strategic alliance to provide a Door Access interface.

- DataCard Corporation introduces its first "portable" black & white digital imaging card production system.
- National CacheCard Company (St. Louis, MO) is founded to develop campus card systems using smart card technology.
- CCV Systems (Toronto, ONT), a provider of campus card systems ("Off/line"), becomes ITC Systems under the leadership of Campbell Richardson.

- Advanced Network Technologies (Waco, TX) develops and installs its first "ICAM" (Integrated Campus Management System) access system (i.e., "On/line" magnetic stripe technology) at Baylor University (Waco, TX).
- Special Teams Inc. (Brookings, SD) upgrades its card access system to utilize magnetic stripe technology (i.e., from bar code).

- HARCO Industries Inc. (Phoenix, AZ) introduces its new "OPTIM 9000" access system which utilizes a UNIX© platform.
- Griffin Technology Inc. (Rochester, NY) upgrades its "VALI-DINE" system to include operator "menus" (i.e., replacing string commands) and LAN communications.
- Duke University expands their DukeCard office to a 24/7 operation.

■ The federal "Crime Awareness and Campus Security Act of 1990" (i.e., commonly referred to as the Clery Act) is enacted — requiring colleges and universities to provide their campus crime statistics and related security policies to students, faculty, staff, and prospective students and their families upon request.

Hughes Identification Devices (Irvine, CA). HID is formed, formerly a subsidiary of Hughes Aircraft Corporation – founded in 1932 by aviator and philanthropist Howard Hughes.

- The strategic alliance between DataCard Corporation (Minneapolis, MN) and Marriott Corporation (Bethesda, MD) to install their co-developed "All-in-One-Card" card access system (i.e., using smart card technology) is dissolved.
- **Diebold Inc.** (Canton, OH), a provider of electronic security systems since the 1940's secures exclusive marketing rights for "**ICAM**" systems by **Advanced Network Technologies** (Waco, TX).

- N.A.C.C.U. (National Association of Campus Card Users) is formed to provide a forum and educational resource for colleges and universities with campus card programs.
- DataCard Corporation (Minneapolis, MN) introduces its first "portable" color digital imaging card production system.
- Florida State University (Tallahassee, FL) changes the "Seminole ACCESS" card name to the "FSU Card".

- Northwestern University (Evanston, IL) becomes the first private university to link their campus card ("WILD Card") with a bank.
- CapCard Inc. (Madison, WI) is founded, under the leadership of Peter Livingston, as a consortium of campus credit unions with interest in linking to campus card programs.
- The University of South Florida (Tampa, FL) becomes the first public university to link their campus card with a credit union.

- DANYL Corporation (Moorestown, NJ) introduces smart card technology.
- DataCard Corporation (Minneapolis, MN) closes its Smart Cards & Systems Division.
- The CBORD Group Inc. (Ithaca, NY) introduces its "Omni ACCESS" system.
- ITC Systems (Toronto, ON) establishes ITC Systems (USA) Inc.

- NPD & Associates (Newtown Square, PA) and Roth Systems Inc. (Lancaster, PA) form a strategic alliance.
- Riverview Systems Ltd. (Grand Rapids, MI), founded in 1984 by Rick Rabe, introduces its "CampusOne System" (i.e., magnetic stripe technology) at the University of Wisconsin Stevens Point, Moravian College, and the University of Wisconsin La Crosse.

- N.A.C.C.U. (National Association of Campus Card Users), founded in 1993, holds its first annual conference on February 13-15, 1994 in La Jolla, CA – attended by representatives from nearly 50 colleges and universities.
- CapCard, founded in 1993 as a consortium of campus credit unions, holds its first annual conference on June 10-12, 1994 in Las Vegas, NV – attended by representatives from nearly 30 campus credit unions.

- HARCO Industries Inc. (Phoenix, AZ) is purchased by AT&T Inc. (Ann Harbor, MI) and becomes AT&T CampusWide Access Solutions.
- DEBITEK Inc. (Chattanooga, TN) is sold to GiroVend Holdings LLC (London).
- Florida State University (Tallahassee, FL) forms the Card Application Technology Center to manage the "FSU Card" and offer seminars on campus card programs.

- Griffin Technology Inc. (Rochester, NY) begins to sell its campus systems (i.e., previously rented to schools since 1970's).
- DANYL Corporation (Moorestown, NJ) introduces a line of OEM "On/line" card readers to campus card system providers.
- MBS Systems Inc. (Columbia, MO), founded in 1981 as a textbook supplier, introduces its first campus card access system at the University of California Santa Barbara.

- ITC Systems (USA) (Atlanta, GA) installs its first "On/line" card access system at Georgia Military College (Milledgeville, GA).
- NPD & Associates / Roth Systems Inc. (Newtown Square, PA) introduce the "WinAmecs One Card System" – which utilized a Windows© platform.
- The CBORD Group Inc. (Ithaca, NY) and Sensormatic (Miami, FL) form a strategic alliance to provide a Door Access interface.

- American Express Travel Related Services Inc. (New York, NY) purchases Special Teams Inc. (Brookings, SD).
- Diebold Inc. (Canton, OH) purchases
 Advanced Network Technologies
 (Waco, TX) and its "ICAM" systems.
- Schlumberger Ltd (France) purchases
 DANYL Corporation (Moorestown, NJ) to form Schlumberger DANYL Inc.

- Diebold Inc. (Canton, OH) introduces a banking module for its "ICAM" card access system.
- Schlumberger DANYL Inc. and First of America Bank form a strategic alliance to develop smart card access systems.
- Schlumberger DANYL Inc. "banking smart card systems" are installed at the University of Michigan (Ann Arbor, MI) and Western Michigan University (Kalamazoo, MI).

- National CacheCard Company (St. Louis, MO) develops and installs its first campus systems using smart card technology at Washington University in St. Louis.
- Griffin Technology Inc. (Rochester, NY) tests smart card technology at Drew University (Madison, NJ).
- The "SUNY Card" is introduced by the State of New York to provide uniform identification and services at all S.U.N.Y. constituencies.

- Florida Community College (Jacksonville, FL) becomes the first public school to utilize a card access system provided by a credit union.
- Griffin Technology Inc. (Rochester, NY) introduces a Windows© platform for their "VALI-DINE" campus card systems.
- Smart City, a vendor consortium to provide smart card systems, is founded by CyberMark LLC, Debitek Inc., Product Technologies Inc., and GemPlus Card International.

- Diebold Inc. (Canton, OH) purchases Griffin Technology Inc. (Rochester, NY) and its "VALI-Dine" systems.
- CyberMark LLC (Columbus, OH), founded in 1992 as a smart card systems integrator, installs its first college system at Old Dominican College (Columbus, OH).
- ITC Systems (Toronto & Atlanta) introduces smart card technology for its access systems.

- University Student Services (Philadelphia, PA), founded by former U/Penn students, market the "QuakerCard" to area students as an "alternative" meal plan.
- The CBORD Group Inc. (Ithaca, NY) introduces its "OmniONE" system.
- The Florida State University "FSU Card" is upgraded to include both magnetic stripe and smart card technologies.

- CyberMark LLC (Columbus, OH), acquires the Card Application Technology Center (FSU).
- National CacheCard Company (St. Louis, MO) and GTE Systems form a strategic alliance to develop and install smart card systems for colleges and universities.
- Diebold Inc. (Canton, OH) tests its new "CS Gold" system at the University of North Carolina Chapel Hill.

- College Enterprises Inc. (Canoga Park, CA), founded in 1993, purchases American Express Special Teams Inc. (Brookings, SD) forming CEI Special Teams Inc.
- CEI Special Teams Inc. (Brookings, SD) introduces its new "Envision" system which utilized a Windows© platform.
- Schlumberger DANYL (Moorestown, NJ) introduces its "OPUS" system.

- The Pennsylvania State University System becomes the first school system to link their campus card systems ("id+") simultaneously to multiple financial institutions.
- The Pennsylvania State University System becomes the first school system to utilize smart card technology for select on-campus and off-campus applications.
- CyberMark LLC expands the "FSU Card" smart card with cellular telephones.

- The University of Delaware (Newark, DE) becomes the first public university to link their campus card with a savings & loan.
- Northeastern University (Boston, MA) becomes the first private university to offer a co-branded MasterCard© campus card – produced on-site by the university.
- CyberMark LLC and First USA introduce a co-branded MasterCard© smart card chip on the "FSU Card" at Florida State University.

- The University of Missouri Columbia becomes the first school to "share" its card system host with another non-related school Stephens College (Columbia, MO).
- National CacheCard Company (St. Louis, MO) and GTE Systems install their first smart card system at Ashland University (OH).
- Debitek Holdings LLC (London) is purchased by IVI/Checkmate Corporation (Roswell, GA).

- The National College Registration Board (Princeton, NJ), a subsidiary of University Student Services (Philadelphia, PA), founded by former U/Penn students, solicits high school and college students nationwide with its national student card ("The Campus Card").
- The National College Registration Board agrees to terminate its business and provide refunds to students in 35 states after IHE complaints and impending legal action by Attorney Generals from several states.

- National CacheCard Company (St. Louis, MO) and GTE Systems dissolve their strategic alliance.
- CapCard Inc. (Madison, WI), a consortium of campus credit unions founded in 1993 for the purpose of linking credit unions with campus card programs, is dissolved.
- Schlumberger DANYL Inc. (Moorestown, NJ) changes its name to Schlumberger Inc.

- Diebold Inc. (Canton, OH) introduces smart card technology for its "CS Gold" system at Pepperdine University (Malibu, CA).
- CEI / Special Teams Inc. (Canoga Park, CA) changes this CEI division name to College Enterprises Card Systems.
- The CBORD Group Inc. (Ithaca, NY) introduces its "Omni ACCESS NT" system to provide "Windows© NT" network compatibility.

- VersaComm Inc. (Boston, MA), founded by former U/Mass students, introduces the "Swipe It Meal Card" as an "alternative" meal plan which later becomes "U Meal Deal" (i.e., still offered to students in select states).
- University MealPass (Tampa, FL) introduces the "University MealPass" as an "alternative" meal plan to area U/Florida students.

- CEI / Special Teams Inc. (Canoga Park, CA) changes name to iCollege Inc.
- iCollege Inc. (Canoga Park, CA) announces its intentions to acquire AT&T CampusWide Access Solutions.
- Blackboard Inc. (Washington, D.C.) announces its intentions to acquire iCollege CampusWide Access Solutions (formerly HARCO Industries Inc.) and Campus Card Systems (formerly CEI Special Teams).

- The CBORD Group Inc. (Ithaca, NY) introduces its "Odyssey PCS" system.
- Student Advantage Inc. (Boston, MA), founded in 1992 as a national student membership and retail discount network, introduces "SA Cash" – to expand existing campus card programs to off-campus retail merchants (i.e., without using a bank).
- CyberMark LLC (Columbus, OH) expands its ownership to include First USA Bank.

- National CacheCard Company (St. Louis, MO), founded in 1990 to develop smart card campus card systems abandons IHE market.
- University MealPass (Gainesville, FL), which introduced the "University MealPass" in 1999 as an "alternative" meal plan to area U/Florida students, becomes insolvent.
- ASSA ABLOY (Stockholm, Sweden) acquires
 HID Corporation (Irvine, CA).

- The CBORD Group Inc. (Ithaca, NY) introduces the first industry "IP addressable" card readers eliminating the need for direct wiring or LAN card reader networks.
- Blackboard Inc. (Washington, D.C.), founded in 1997 as an e-Learning software company, purchases iCollege CampusWide Access Solutions and Campus Card Systems (CEI).
- CyberMark LLC (Columbus, OH) acquires
 SchlumbergerSema smart card systems.

- The Claremont Colleges consortium (CA) begins to develop an inter-institutional campus card program at 5 colleges.
- Schlumberger Ltd (France) forms
 SchlumbergerSema, an international provider of smart card based products and systems.
- Ingenico (Ontario, CAN) purchases and IVI/Checkmate Corporation (Roswell, GA) and its subsidiary, Debitek Holdings LLC (Chattanooga, TN).

- CyberMark LLC (Columbus, OH), service provider for the "FSU Card" is dissolved.
- ITC Systems (Tononto, CAN) provides customer support for former CyberMark higher education customers.
- The University of Vermont (Burlington, VT) becomes the second school to "share" its card system host with another non-related school Saint Michael's College (Burlington, VT).

Higher One Inc. (New Haven, CT), a virtual bank founded in 1999, introduce a co-branded MasterCard© campus card – produced by a bank service bureau at the University of Houston (Houston, TX).

Blackboard Inc. (Washington, DC) acquires the "SA Cash" division of Student Advantage LLC (Boston, MA) – a leading provider of off-campus merchant services for campus card programs.

- The University of Vermont (Burlington, VT) becomes the first school to "share" its card system host with two non-related schools Saint Michael's College (Burlington, VT) and Champlain College (Burlington, VT).
- Student Advantage LLC (Boston, MA) acquires Quentrix Inc. – a facilitator of off-campus merchant services for campus card program.

- General Meters Corporation (Colorado Springs, CO) introduces "wireless" door access card readers ("On/line").
- The CBORD Group Inc. (Ithaca, NY) purchases the Diebold Campus Card Systems division from Diebold Inc. (OH).
- The Claremont Colleges consortium (CA) implements a single host for its evolving inter-institutional campus card program at 5 independent colleges.

- Blackboard Inc. (Washington, D.C.) introduces its new generation "Universal Edition" system (i.e., while still supporting its "UNIX™" and "Windows©" campus card systems).
- The CBORD Group Inc. (Ithaca, NY) purchases the "SA Membership" program, the nation's largest student discount membership program, from RSV Ventures Inc. (Boston, MA).

- The Colleges of the Fenway (Boston, MA) launches the "Fenway Card" program the first 6-college independent inter-institutional campus card program using a consortium branded card, single host, and off-campus merchant applications at time of introduction.
- Heartland Payment Systems (Princeton, NJ) acquires Debitek Inc. (Chattanooga, TN).
- Blackboard Inc. (Washington, D.C.) purchases WebCT Inc.

- HID Global Corporation, a division of ASSA ABLOY (Sweden) purchases Fargo Electronics Inc. (Minneapolis, MN).
- Quentrix Inc., a subsidiary of Student Advantage LLC (Boston, MA), becomes Off-Campus Advantage LLC.
- The CBORD Group Inc. (Ithaca, NY) introduces its "OdysseyOne" system targeted at small to mid-sized schools.

- JSA Technologies Inc. (Bedford, MA), founded in 1998, contacts colleges, universities, and industry vendors that they may be in violation of a JSA patent denoting the transfer of funds via the Internet for campus card programs.
- Arthur Blank & Company (Boston, MA), a card marketing company, introduces the CornCard USA™ corn-based plastic card stock.

- Heartland Payment Systems (Princeton, NJ) acquires General Meters Corporation (Colorado Springs, CO).
- Heartland Payment Systems (Princeton, NJ) introduces contactless financial transactions via cell phones at Slippery Rock University (Slippery Rock, PA).
- The CBORD Group Inc. (Ithaca, NY) acquires Off-Campus Advantage LLC, formerly a subsidiary of Student Advantage LLC.

Off-Campus Advantage LLC (Ithaca, NY), formerly known as "SA Cash", introduces its Internet based high-speed DSL transaction technology to facilitate off-campus merchant network transactions for existing campus card programs.

- N.A.C.C.U. (National Association of Campus Card Users), founded in 1993 to provide a forum and educational resource for colleges and universities with campus card programs, holds its 15th annual conference on April 5-9, 2008 in Las Vegas, NV attended by nearly 600 attendees from around the world.
- Roper Industries Inc. (Sarasota, FL) acquires The CBORD Group Inc. (Ithaca, NY).

■ **Blackboard Inc.** (Washington, DC) acquires the **NTI Group** (Sherman Oaks, CA) – a leading provider of mass messaging and notification solutions.
